

## Web Developer Application

---

Hello and thank you for taking the time to view our applications page! It's toons like you who help keep Toontown running and we can't wait to see your application.

Before we begin it's important we go over a few things to make sure you're up to speed!

### **About the Corporate Clash Crew:**

Every member on the Corporate Clash Crew is a volunteer and the position you're applying for isn't a paid position.

Every member of the Corporate Clash Crew will be expected to dedicate time towards the projects they're assigned to unless you notify your team lead.

With that out of the way, let's talk about the Front-end Web Developer position.

### **About the role:**

Front-end web developers will be tasked with developing the user-facing side of our website and internal tools. Working alongside our backend web team, front-end web developers will need to know the latest tools and tech in order to make efficient systems.

### **Position Requirements:**

- Must be at least 14 years of age.
- Intermediate experience with HTML, CSS (SASS), Javascript (Webpack, Vue)
- Knowledge of other languages such as PHP and Python is preferred, but not required.
- Understand and distill broad, complex concepts into beautiful mockups and prototypes.
- Ability to write unit & UI tests
- Experience with Github is a plus, but not required.

So it's time to begin!

Let's get started with your application.

The way we recommend you fill out the application is to either number each question or copy the application into a word processor of your choice. Once you're done, send it off to [applications@corporateclash.net](mailto:applications@corporateclash.net) with the subject line 'Front-end Web Developer Application'

### **Section 1 - Personal Information:**

1. What is your name?

2. Do you have a preferred name?

3. What TimeZone are you located in?

*Our team works in eastern time, but we have crew members from around the world!*

4. Are you fluent in English?

*If you speak any other languages, please tell us about it!*

5. Are you able to occasionally voice chat with other team members and in meetings?

6. What is your estimated availability per week?

7. Have you ever worked in a team environment before?

8. Is there anything else you'd like to tell us about yourself?

### **Section 2 - Toontown**

1. Do you have any experience with Toontown?

*If so, we'd love to know when you started playing!*

2. Do you actively play Toontown?

3. Have you ever worked on a Toontown server before?

4. How familiar are you with Toontown: Corporate Clash?

*Do you know about the changes we've made compared to the original?*

**Section 3 - Front-end Web Developer:**

1. Do you have any prior experience in web development?

2. How long have you been developing front-end applications?

3. What is your primary programming language? What languages do you know?

4. What is your favorite JS framework?

5. How familiar are you with Github? If you have used it before, please provide your username.

6. Do you have any previous work you can show us?
